# Product information

Amore&Baci beads are made from the finest quality precious metals and stones. The manufacturer for Amore&Baci beads only uses the highest quality of sterling silver, Murano glasses, Swarovski crystals and other precious materials. Each Amore&Baci bead is stamped with the industry standard 925 ensuring each silver piece contains at least 92.5 percent silver. Amore&Baci designs are hand-made by experienced craftsmen. The large and growing collection of symbols make for endless variations and combinations, each with a story to tell. Amore&Baci high standard of craftsmanship and Italian design provide consumers with lasting quality jewelry.

## Murano

All our Murano beads are first quality, guaranteed and certified "Original Murano Glass". It is a handmade product and the glass behaves differently depending on environmental conditions in which the glass rod is brought into fusion (temperature, humidity, season of the year, etc.). Because of that, products may vary slightly, in terms of shape, size and colour from the pictures included in the catalogue; any slight variation guarantees that the products were exclusively crafted by hand according to Murano artisan techniques. This is an essential characteristic of handmade glass and the customers must be informed of this.

## Rubber

Following the latest International standard Amore&Baci Rubber Bracelets are carefully designed using finest quality of caucciù/ rubber.

## Enamel

All the enamels used in our collections respect the highest quality standard of the industry.

## Warranty

Amore&Baci guarantees all jewelry for 12 months from the date of purchase. If your Amore&Baci item is determined by the manufacturer to be defective in any way within the 12 month warranty, we will replace your piece. Proof of purchase is required. General wear and tear is not covered by the Amore&Baci warranty policy. This includes damage from using liquid silver polish on the product, wearing it in swimming pools, exposure to harsh chemicals and normal fading on oxidized items.

## Maintenance

Our silver beads are treated to resist tarnishing, but sometimes they need a quick touch-up. To do so, we recommend using a silver polishing cloth. Do not use liquid silver polish as it removes the oxidization off the beads and bracelets. It is also recommended that you remove your jewelry before coming into contact with water, swimming pools, as exposure to harsh chemicals can alter the appearance of your Amore&Baci product.

Amore&Baci and Amore&Baci retailers are not held responsible for errors in printing or changes in item numbers and prices. Amore&Baci products are hand crafted. Variations in color, size or shape are to be expected and we reserve the right to change it.
